1.0 BACKGROUND

The General Services Administration (GSA) National Information Technology Commodity Program (NITCP) intends to utilize innovative acquisition strategies in establishing several multiple award Blanket Purchase Agreements (BPAs) for a variety of leading Information Technology (IT) products. NITCP considers the following IT products as areas to utilize innovative acquisition strategies: Laptops, Desktops, Notebooks, Servers, Video Conferencing and Monitors, to name a few. The NITCP has a goal to improve consistency of IT commodity offerings across the federal government. The NITCP's vision is to be viewed as the leading source and first choice for providing IT commodity end-to-end solutions for federal customers. The NITCP's mission is to procure IT commodities for customer's located nationwide using innovative solutions. In addition, the NITCP supports the Office of the Chief Information Officer's 25 Point Federal IT Implementation Plan, specifically point #20 entitled, to work with Congress to consolidate commodity IT spending under Agency.

The BPA(s) will be administered by the GSA Federal Acquisition Service, Southeast Sunbelt Region 4, National Information Technology Commodity Program (NITCP) located at 401 W. Peachtree Street, Suite 820, Atlanta, GA 30308.

2.0 OBJECTIVES

To achieve the Government's goals, the following objectives are sought through this acquisition:

- Achieve uniform prices and measurable total cost savings while maintaining or improving current service capability levels;
- Obtain significant reporting and transactional data to enable agencies to better manage spend for IT Products;
- Ensure regulatory compliance in the acquisition of IT products to include; sustainable purchase requirements, and the Trade Agreements Act (TAA);
- Align purchasing with existing agency business practices; and
- Improve ordering process for IT commodities.

The overall goal is to allow the Government a fast and effective way to order IT commodities at sharply discounted prices with prompt, cost-effective delivery and effective customer service, while capturing economies of scale, ensuring compliance with applicable regulations, fostering markets for sustainable technologies and environmentally preferable products, and simplifying data collection.

3.0 SCOPE

The NITCP initiatives are implemented in a phased approach in procuring user agencies most commonly used IT commodities. It is the intent of the first phase to enable acquisition based processing for IT commodities with minimal systemic changes. As part of this phase, multiple award BPAs will be created against Schedule 70 contracts, SIN 132-8, Computer Tablets and accessories. Additionally, the NITCP initiatives will promote Green House Gas (GHG), Zero Environmental Footprint, Point of Sale, E-Waste Disposal, Buy-Back, Energy Star/EPEAT, and delivery order level reverse auctioning pricing methodology.

No open market items will be accepted. All offered products shall be available under the proposed GSA Federal Supply Schedule (FSS) Price List by the closing time and date of the Request for Quote submittal. Authorized users are DoD, other Federal, approved State and local agencies.

The Government estimates, but does not guarantee, that the volume of purchases through this agreement will be \$31,944,570.00. This is not a ceiling amount and the accumulated value of delivery orders/call issued under this BPA may exceed this amount without modification to the BPA.

The resulting awarded BPAs will be established for a one year base period with two (2) one year option periods. In accordance with FAR 8.405-3(e)(1)(i)(ii)(iii), the resulting awarded BPAs will be reviewed annually.

In accordance with FAR 8.405-3(a)(3)(iv), the Government may award approximately ten BPAs for this requirement.

The Federal government has multiple methods of order fulfillment, such as: government purchase cards, BPA calls, requisitions, Federal Standard Requisitioning and Issues Procedures System (FEDSTRIP), Military Standard Requisitioning and Issue Procedures (MILSTRIP), Department of Defense Activity Address Code (DODAAC), Activity Address Code (AAC), and Military Interdepartmental Purchase Request (MIPR).

4.0 PERIOD OF PERFORMANCE

The BPA will remain in effect from the date of award through one base year and two- one year options, if exercised, consistent with the term of the Schedule 70 contract.

5.0 PREVAILING TERMS AND CONDITIONS

All terms and conditions of the Contractor's awarded Federal Supply Schedule 70 contract shall apply to the BPA and orders issued against the BPA by participating agencies. The terms and conditions of the Contractor's Federal Supply Schedule 70 contract shall prevail over the BPA and all orders, except to the extent that lower prices in the established BPA shall take precedence over higher prices in the Contractor's Federal Supply Schedule 70 contract. The terms and conditions of this BPA shall apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of the BPA and any terms and conditions contained in an order, the provisions of this BPA will take precedence. Additionally, delivery terms in this BPA are applicable to all BPA orders.

6.0 OBLIGATION OF FUNDS

Funding will be included on various methods of ordering of commodities, i.e. orders, calls, requisitions, government purchase cards, Federal Standard Requisitioning and Issues Procedures System (FEDSTRIP), Military Standard Requisitioning and Issue Procedures (MILSTRIP), Department of Defense Activity Address Code (DODAAC), Activity Address Code (AAC), and Military Interdepartmental Purchase Request (MIPR). 7.0 PRODUCT REQUIREMENTS

NITCP intends to establish BPAs for Computer Tablets and accessories offered under each contractor's GSA Federal Supply Schedule 70 IT Solutions and Electronics, SIN 132-8 and NAICS 334111.

Minimum salient characteristics for Computer Tablets and Accessories are provided in Attachment A: BPA Price Template. The item(s) listed in Attachment A is for price evaluation purposes only for the selection of BPA quotes for the establishment of the BPAs.

Note: By submission of a quote for the BPA an offeror agrees that if a BPA is established with that offeror then that offeror's discount percentage offered for the BPA shall be the overall discount offered for and applied to all Computer Tablets and accessories on the offeror's GSA Schedule contract that may be purchased through orders against the resultant BPA.

8.0 PRODUCT PRICING

8.1 The prices proposed should be discounted from the FAS Schedule contract prices and the discount rate should be fixed for the duration of the BPA, unless otherwise negotiated by the Contracting Officer. Discount rates proposed will apply to all subsequent additions, substitutions, and any other changes to the BPA. Any decreases in the FAS contract prices shall result in immediate commensurate decreases in the BPA prices. Prices may be voluntarily reduced at any time. The Contracting Officer shall be notified immediately via e-mail whenever price reductions occur.

8.2 Each Multiple Award Schedule Contractor responding to this RFQ has complete flexibility and is encouraged to offer lower unit prices and increased discounts for award of this BPA without being required to pass the price reduction to all schedule users. This is in accordance with FAR 8.405-4, Price reductions which states, "Schedule contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order or BPA.

8.3 In the event of a change in the GSA minimum requirements, the Contractor will be provided notification by the GSA Contracting Officer and allowed 30 calendar days to quote an item that meets the new standard, including pricing which reflects the awarded Schedule 70 discount percentage in addition to the established BPA discount.

8.4 In the event of an End of Life (EOL) of a product offered under the BPA, the Contractor shall notify the Contracting Officer within 30 calendar days of product EOL and quote a substitute product, as specified above.

9.0 PRODUCT CHANGES

9.1 The Contractor shall send electronic notification via e-mail to the Contracting Officer of any technology upgrades, substitutions, or changes projected to be or currently offered for ordering under the established BPA.

9.2 The contractor may recommend product substitutions as long as the substituted item is the same or better technology at the same or lower price and are mutually agreed to by GSA. These can be posted to the BPA product offering in the on-line ordering system, as an update.

Delivery order modifications will not be required unless the substitution impacts the funding obligated to the order. The invoice will reflect the actual product shipped not the product ordered.

10.0 REQUIREMENTS RELATED TO REGULATORY COMPLIANCE

10.1 Trade Agreements Act (TAA), (19 U.S.C., et seq.):

Products provided under this agreement are subject to and shall be in compliance with TAA mandate, unless an authorized official of the GSA Schedules Office approves in writing a deviation to add non-Trade Agreement Act items to an offeror's Schedule contract.

Federal Agencies are required by Executive orders 13423 and 13514 and the Federal Acquisition Regulation (FAR) to assess and give preference to those products deemed environmentally preferable through the Environmentally Preferable Purchasing (EPP) program. The EPP program should improve the ability to meet existing environmental goals identified at www.epa.gov/epp.

Contractors are required to provide an extensive selection of sustainable products. During the course of the BPA, GSA may begin to require an automatic substitution policy to ensure the Government is buying products that foster markets for environmentally preferable content and sustainable technologies. BPA holders shall assess the environmentally preferable content of BPA products at least annually and refresh their product list with the highest content products. Contractors will be notified by the GSA Contracting Officer during the course of the BPA.

Section 508 also requires that individuals with disabilities, who are members of the public seeking information or services from a Federal agency, have access to and use of information and data that is comparable to that provided to the public who are not individuals with disabilities, unless an undue burden would be imposed on the agency.
