334290	Track Group	RFB-PD-01	<p>The ReliAlert™XC4 and Shadow devices were designed as one-piece devices with built-in GPS and embedded RF receiver technology. In most cases a Beacon is not necessary and is only used if GPS reception has proven to be insufficient. If a location that an individual regularly visits, such as home or work, has insufficient GPS coverage, a Beacon may be used to ensure location information via the Beacon's RF location reporting functionality. Transmits an RF signal every 20 seconds. Data transmissions are secured via AES-128 encrypted. Beacon is powered by internal batteries that provide in excess of three (3) years of operation (no phone or external power required) and is FCC certified.</p> <p>RFB-PD-01 pricing includes: standard maintenance, and warranted repairs.
