## Mission Proven Boats

When our customers were asked what defines and differentiates Willard Marine, they most commonly used words like "Partner," "Respectful," "Strong" and "Proven." We are proud of these attributes and have been committed to the highest level of customer service and quality since our founding in 1957.

Willard Marine has built numerous types of vessels for the most discerning customers in the world including the U.S. Navy, U.S. Coast Guard, Homeland Security, NOAA, foreign militaries and major-market law enforcement agencies. We understand that maritime professionals depend on Willard boats to be exceptionally rugged, safe and maneuverable in the most challenging conditions, so no boat leaves our facility without every component and capability being rigorously tested at sea.

## How We Operate

Privately held, Willard Marine is headquartered in Anaheim, California, and has an additional facility in Virginia Beach, Virginia. Our boats are built to the required USCG and ABYC standards, and our team of recognized professionals in the fields of Marine Engineering, Manufacturing, Materials, Quality Assurance and Testing are skilled at developing highly specialized boats that exceed regulatory standards and our customers' expectations.

Being 9001:2008 certified, Willard maintains a Quality Assurance and Control program that requires strict marine engineering, production and testing standards. Our unwavering commitment to innovative materials and

processes, like fiberglass vacuum infusion, eliminate product and production variations typically found in multi-vessel production. And long-term, consistent leadership on our Manufacturing team where the average company tenure is 22.5 years ensures that all Willard boats are built with the ultimate in craftsmanship and proven durability.

## Call On Us - Count On Us

Once you become the proud owner of a Willard vessel, call upon our Crew Familiarization team for any type of onboard or in-classroom training course. With decades of extensive field experience regarding boat operation, maintenance and repair, our Crew Familiarization team will work with you to design the most effective and cost-efficient experience that will achieve your training goals, including a "Train the Trainer" syllabus if desired.

Willard's Service, Repair and Refurbishment experts travel worldwide to support our clients in the field and provide the industry's best customer service. They conduct comprehensive vessel surveys and provide solutions aligned with maritime regulatory bodies, standards and laws. Whatever repair or refurbishment project you may have, Willard Marine guarantees prompt and professional service to get you back on the water quickly and safely.

Finally, Willard Marine is proud to say that none of our clients have reported a hull-failure. This is a reflection of our quality engineering and manufacturing processes combined with our exceptional attention to detail found in everything from our orderly electrical wiring to the strategic placement of scupper holes. We stand behind our work and offer a comprehensive warranty, but rest assured that you'll experience many decades of reliable performance and low-cost maintenance with your Willard Marine boat!

## Customization

Willard Marine is proud to offer custom boat design services at every level. Our Engineering team will collaborate with you to develop drawings, create an ideal design package, and build the boat you want. Willard boats are built to the required USCG, ABYC and ISO standards.

## Build Quality Assurance

Willard Marine is 9001:2008 ISO certified, which requires that we maintain a strict Quality Assurance and Control program with stringent marine engineering, manufacturing, and testing standards that yield consistent products, reduced costs, and more efficient production timelines for our clients. Collaborating with Manufacturing and Engineering, our QA Department ensures the appropriate tests, inspections, and validation criteria are utilized for all boats that WMI develops. We document all quality-measurement results and submit the improvements or changes necessary to successfully meet all contract, specification, certification and test requirements.

**WILLARD MARINE®**

*Mission Proven Boats*

## Consistent Manufacturing Leadership

The intellectual and experiential equity that our manufacturing team possesses is central to our success. Willard's Vice President of Manufacturing, Dave Gutierrez, has been at the company for nearly 40 years, constantly guiding and improving our production processes. And our manufacturing employees' average tenure is 22.5 years. In collaboration with Engineering, Sales and Quality Assurance, our Manufacturing team consistently turns out world-class vessels that our customers re-purchase year after year.

By managing the vessel design and production process from beginning to end with such an experienced production team, Willard Marine guarantees that our vessels will be of the ultimate in quality and consistency, representing the safest and best-performing boats available.

## Our Mission

Willard Marine builds mission proven boats as tough and worthy as those who depend on them.

Law enforcement, military and commercial mariners around the world place unwavering confidence in their Willard Marine boats and the talented men and women who design, build and service them.

It is always our mission to help mariners complete theirs.

## Our Vision

We aspire to confidently equip every mariner to return home from every mission.

## Locations

Our facility in Anaheim, California, is three acres of improved space fully equipped with modern manufacturing and handling equipment for fiberglass, high-tech composite and aluminum boats. With an enclosed production area of more than 22,000 square feet, Willard can safely and efficiently produce a variety of vessels simultaneously. Our outside storage area of 66,000 Sq. Ft. is level, fenced and fully lighted to accommodate boats, skids, trailers, and equipment. Our facility in Virginia Beach, Virginia, is similarly structured. Both facilities offer full lifecycle maintenance, repair and refurbishment services.

<b>ENGINE AND ENGINE EQUIPMENT</b>			
96	Propulsion Engine , Twin Inboard Diesel Engines, Yanmar,315 HP with electric shift marine gears and Hamilton Water Jets, As a minimum, the engine is equipped with the following gauges and/or alarms: a. Tachometer (2X) b. Trim Gauge (2X) c. Voltmeter (2X) d. Speedometer (1X)	WLD-9MRB-112	\$112,617
97	Twin Propulsion Engine Package - 370 HP Cummins/Hamilton 274 or Twin Disc TDJ110 Jet Drive Unit	WLD-9MRB-64	\$140,545
98	Twin Propulsion Engine Package - 380 HP QSB Cummins/ DOEN TDJ110 Jet Drive Unit	WLD-9MRB-64A	\$190,905
99	Twin Propulsion Engine Package - 380 HP QSB Cummins/Hamilton 292 Jet Drive Unit	WLD-9MRB-64B	\$191,604
100	Twin Propulsion Engine Package - 440 HP Yanmar/Electronic Jet Drive Unit	WLD-9MRB-65	\$205,600
101	Twin Propulsion Engine Package-425 HP Cummins/Jet Drive Unit	WLD-9MRB-66	\$195,300
102	Twin Propulsion Engine Package - 540 HP Cummins / Jet Drive Unit	WLD-9MRB-66A	\$244,800
103	Marine Gear Electric Shift Upgrade, per Marine Gear	WLD-9MRB-66B	\$1,350
104	Marine Gear PTO Provision with matching Hydraulic Pump, per Marine Gear	WLD-9MRB-66C	\$2,960
105	Propulsion Engine Package, Twin Cummins 370HP/Stern Drives	WLD-9MRB-14	\$132,416
105	Hydraulic steering for dual engines. Power take-off pump will be utilized for Hydraulic bucket control. PTO will be installed to OEM recommendations.	WLD-9MRB-105	\$2,497
<b>Fuel Tank Options</b>			
106	50 Gallons Capacity, Aluminum Auxiliary Fuel Tank	WLD-9MRB-67	\$983
107	150 Gallons Capacity, Aluminum Fuel Tank	WLD-9MRB-68	\$2,194
108	265 Gallons Capacity Aluminum Fuel Tank Upgrade	WLD-9MRB-68A	\$3,775

109	280 Gallons Capacity Aluminum Fuel Tank Upgrade	WLD-9MRB-68B	\$4,112
110	300 Gallons Capacity Fuel Tank Upgrade	WLD-9MRB-68C	\$5,790
111	Electric Fuel Stripping Pump with Adapter and Container	WLD-9MRB-68D	\$710
