About Mohawk Lifts

ALWAYS THERE WHEN YOU NEED A LIFT

Mohawk, the undisputed leader in lift technology, offers environmentally safe above ground lifts ranging from 6,000 to 240,000 pound capacities.

Since 1981 Mohawk has manufactured the **highest quality, safest auto and truck lifts available. Mohawk is the #1 lift supplier for all government, state, utility, and fleet lifting requirements.** Mohawk's popularity is based on a combination of safety systems, design, construction, and the most inclusive warranty in the lift industry.

Mohawk is one of the few lift manufacturers whose products have passed rigid third party compliance testing to ANSI/ALI ALCTV-2006. Certification of ANSI compliance has become important to lift specifiers & users. Demand certification by looking for the ALI Certified and ETL Listed marks.

Mohawk customers include General Motors, The Department of Defense, FBI, Verizon Telephone, United Airlines, The U.S. Post Office, General Service Administration, as well as hundreds of utilities, thousands of private fleets, and repair garages.

Mohawk's hydraulically equalized two post lifts (U.S. Patent # 4500071) allow the overhead hydraulic lines to be set at any height or routed in-floor, allowing full lifting of all tall trucks and vans. All Mohawk lifts incorporate **all position mechanical safety locks** in both columns, **infinite position hydraulic safeties**, truck adaptors as standard equipment, **a full 5-year warranty**, and **lifetime cylinder warranty**.

Mohawk columns are constructed of 3/4" thick "C" shaped forklift mast sections. All Mohawk carriages ride on 16 double sealed self-lubricating steel ball bearing rollers (not plastic slide blocks). These design features give the Mohawk lift an infinitely longer life cycle than other lifts and make Mohawk lifts the heaviest built lifts in the industry.

IF THERE IS A VEHICLE IN THE AIR MAKE SURE THERE IS A MOHAWK LIFT UNDERNEATH IT.

Mohawk builds the best products with the finest materials, to the highest standards. Just compare our lifts. Our staff will assist you with a fleet evaluation, CAD Shop Design Assistance and answer any technical questions you have. We invite your calls.
