246-35-1	IVSP-CC	Crowd Control Solution - offers detection of a line of people exceeding a pre-defined "length" or detection of a crowd of people. Typical examples are: Detecting when a line of people has accumulated before a service point in an airport terminal, detecting when a street becomes occupied by a group of people late at night, detecting when people are gathering at the lobby or the entrance to a building are a few examples. Crowd Control solution requires virtually no calibration. This includes one video channel license. (Requires Server License Key Number for every upgrade order).	US	\$568.31	\$558.55
246-35-1	IVSP-FPM	Forbidden Path of Motion Solution – offers the ability to detect forbidden direction or path of motion. The solution offers detection of objects moving in a certain direction or along a specified path. Typical examples include human or vehicle exiting through an "enter only" gate or vehicle taking a forbidden turn at an intersection. This includes one video channel license. (Requires Server License Key Number for every upgrade order).	US	\$568.31	\$558.55
