Company Background

AQS Management Systems, Inc. provides consulting, training, coaching, and project assistance in support of organizational improvement and implementation of international management system standards.

We successfully participated in the RAB pilot project for ISO 9000 Lead Auditor Training in 1993 and the ISO 14001 Lead Auditor Training in 1996. No organization has been doing RAB/RABQSA/Exemplar Global Certified Lead Auditor Training longer than AQS Management Systems.

Established in 1989, we have grown to offer a full range of innovative training and project support services to industry, government, non-profit, and service in areas of Quality, Environment, Food Safety, Energy Management, Contingency Planning and Occupational Health and Safety. Our full time staff and regional technical experts are fully qualified to provide the support you need. We have never had a client who failed an audit where we provided direct consulting support.

Our Qualifications

The AQS skill set includes trainers and project support personnel with technical expertise in:

Manufacturing	Food	DOD
Waste Water Treatment	Government	Contingency Planning
Automotive	Aerospace	Surface Water
Service	HACCP	Hazard Analysis
Health Care	Occupational Health and Safety	Medical Device
Air Pollution	Agribusiness	Resource Management

What We Do

Our primary focus is to provide timely, cost-effective advice and support to organizations who intend to use their completed management system to generate profit and reduce risks and costs for their organization. In addition to achieving successful registration, we work with our clients to achieve improved customer satisfaction, improved internal performance, and efficient operations.

A Unique Approach to Project Support

AQS's time-tested approach is truly unique in our industry. Unlike many consulting organizations that work to fit an organization into ISO, we will help you and your team to integrate ISO into your organization. This approach ensures that you have only one system to manage; your business. With the help of our experienced personnel you will never have to manage ISO as a separate set of requirements that fall outside your business processes.

While most ISO experts understand the "rules," and many of the best understand how to successfully apply the "rules," AQS Management Systems distinguishes its projects by adding one critical component: we understand when the "rules" apply. Our no-nonsense approach to project support achieves registration and performance results with an emphasis on eliminating unnecessary paperwork and cumbersome rules.

Description of Services

SIN 874-1 & 874-1RC: Integrated Consultation Services

PARTNER –

Functional Responsibility:

Partner level staff will lead projects consisting of Management Systems Implementation, Full System Audits and Consulting in the areas of QMS, EMS, OHS and PS-Prep. They will be the Lead contact for these projects as well as training events.

Education/Experience:

Master's Degree and 4 years experience

Bachelor's Degree and 6 years experience

High School Diploma and 10 years experience

Training or Certification Requirements: None

Service Contract Act:

The Service Contract Act (SCA) is applicable to this contract as it applies to the entire MOBIS Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and / or when the contractor adds SCA labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

SIN 874-4 & 874-4RC: Training Services: Instructor Led Training, Web Based Training and Education Courses, Course Development and Test

AQS Management Systems, Inc. provides consulting, Training (Instructor led and Blended Web and Instructor led), coaching and project assistance in support of organization improvement and implementation of international management standards.

1/2 Day and 1 Day Overview – QMS/EMS/OHSAS

- Provide professional credentials to your internal auditors
- Conduct an audit against the newly published ISO 19011 Audit Standard
- Provide critical knowledge for your staff and management

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: None

4 Day - Integrated – QMS/EMS/OHSAS

Who Should Attend:

Those responsible for Quality Management System (QMS) / Environmental Management System (EMS) / Occupational Health and Safety Assessment System (OHSAS) for planning and scheduling an audit program for ISO 9001, ISO 14001 and/or OHSAS 18001 and those who must perform audits to ISO 9001/ISO 14001 and/or OHSAS 18001, QMS/EMS/OHSAS Assurance Managers, Quality/Environmental/Health and Safety professionals, ISO Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the ISO 9001/ISO 14001/OHSAS 18001 Audit Process.

Course Objectives:

- Understand and implement the planning required to integrate audit activities across multiple management systems
- Understand and successfully interpret the requirements of ISO 9001, ISO 14001 and OHSAS 18001
- Plan and conduct Integrated Audits using ISO 19011
- Generate documents and records associated with a successful Integrated Audit
- Use of effective opening and closing meetings to manage the communication process during Integrated Audits
- Conduct Integrated Audit interviews that generate audit evidence
- Ensure nonconformities are resolved prior to closing each audit cycle

Intended learning outcomes—students will:

1. Given ISO 9001, ISO 14001 and/or OHSAS 18001 requirements, interpret the requirements of the standard.

2. Given an audit scenario, collect audit evidence appropriate for ISO 9001, ISO 14001, and/or ISO 18001 requirements.
3. Given an audit scenario, write nonconformity statement(s) and document the related audit evidence and requirements that support that nonconformity statement.
4. Understand terms and definitions related to management systems and auditing, including ISO 9001, ISO 14001 &/or OHSAS 18001.
5. Based on ISO 19011, identify the knowledge and skills required for auditors.
6. Based on ISO 19011, identify principles of auditing.
7. Based on ISO 19011, define and describe the roles and responsibilities of the Auditor and the Audit Team Leader.
8. Based on ISO 19011, describe the personal behaviors of a successful Auditor.
9. Based on ISO 19011, describe the components of the Audit Cycle.
10. Given ISO 9001, ISO 14001 and/or OHSAS 18001 requirements, determine the requirements of the standard where an opportunity exists for integration and describe how these requirements would be audited in an integrated audit.
11. Given ISO 9001, ISO 14001 and/or OHSAS 18001 requirements, as well as company specific requirements, conduct an audit based on the ISO 19011 Audit Cycle including:
 - Developing and using an integrated audit checklist;
 - Conducting an opening meeting;
 - Conducting audit interviews;
 - Collecting audit evidence and documenting conformities and nonconformities during an audit interview;
 - Writing an audit report; and
 - Conducting the closing meeting.

Additional benefits associated with attending this course:

- Qualify additional staff to conduct audits
- Provide critical knowledge for your management staff
- Gain insight into the ISO 9001, ISO 14001 and OHSAS audit requirements to augment/sustain your existing program

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 19-30. Additional fee for 2nd instructor at student 19 is \$2600.00.

4 Day - Integrated – MD/TS

Who Should Attend:

Those responsible for Medical Device (MD) / Technical Specification (TS) functions relating to planning and scheduling an audit program for ISO 13485/TS 16949/TS 29001, ISO 14001 and/or OHSAS 18001 and those who must perform audits to ISO 13485/TS 16949/TS 29001, ISO 14001 and/or OHSAS 18001, QMS/EMS/OHSAS Assurance Managers, Quality/Environmental/Health and Safety professionals, ISO Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the ISO 13485/TS 16949/TS 29001/ISO 14001/OHSAS 18001 Audit Process.

Those who successfully complete this course will:

- Understand and implement the planning required to integrate audit activities across multiple management systems
- Understand and successfully interpret the requirements of ISO 13485/TS 16949/TS 29001, ISO 14001 and OHSAS 18001
- Plan and conduct Integrated Audits using ISO 19011
- Generate documents and records associated with a successful Integrated Audit

- Use of effective opening and closing meetings to manage the communication process during Integrated Audits
- Conduct Integrated Audit interviews that generate audit evidence
- Ensure nonconformities are resolved prior to closing each audit cycle

Intended learning outcomes—students will:

1. Given ISO 13485/TS 16949/TS 29001/ISO 14001 and/or OHSAS 18001 requirements, interpret the requirements of the standard.
2. Given an audit scenario, collect audit evidence appropriate for ISO 9001 (or industry specific QMS standard), ISO 14001, and/or ISO 18001 requirements.
3. Given an audit scenario, write nonconformity statement(s) and document the related audit evidence and requirements that support that nonconformity statement.
4. Understand terms and definitions related to management systems and auditing, including ISO 13485/TS 16949/TS 29001, ISO 14001 &/or OHSAS 18001.
5. Based on ISO 19011, identify the knowledge and skills required for auditors.
6. Based on ISO 19011, identify principles of auditing.
7. Based on ISO 19011, define and describe the roles and responsibilities of the Auditor and the Audit Team Leader.
8. Based on ISO 19011, describe the personal behaviors of a successful Auditor.
9. Based on ISO 19011, describe the components of the Audit Cycle.
10. ISO 13485/TS 16949/TS 29001, ISO 14001 and/or OHSAS 18001 requirements, determine the requirements of the standard where an opportunity exists for integration and describe how these requirements would be audited in an integrated audit.
11. Given ISO 13485/TS 16949/TS 29001, ISO 14001 and/or OHSAS 18001 requirements, as well as company specific requirements, conduct an audit based on the ISO 19011 Audit Cycle including:
 - Developing and using an integrated audit checklist;
 - Conducting an opening meeting;
 - Conducting audit interviews;
 - Collecting audit evidence and documenting conformities and nonconformities during an audit interview;
 - Writing an audit report; and
 - Conducting the closing meeting.

Additional benefits associated with attending this course:

- Qualify additional staff to conduct audits
- Provide critical knowledge for your management staff
- Gain insight into the ISO 13485/TS 16949/TS 29001, ISO 14001 and OHSAS audit requirements to augment/sustain your existing program
- Understand the intent and purpose of industry specific subject matter such as Core Tools and 21 CFR 820 where applicable

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 19-30. Additional fee for 2nd instructor at student 19 is \$2600.00.

4 Day – Integrated – AS/FS/Lab

Who Should Attend:

Those responsible for Aerospace (AS), Food Safety (FS) and Laboratory (Lab) functions relating to planning and scheduling an audit program AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and/or OHSAS 18001 and those who must perform audits to

AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and/or OHSAS 18001, QMS/EMS/OHSAS Assurance Managers, Quality/Environmental/Health and Safety professionals, ISO Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025/ISO 14001/OHSAS 18001 Audit Process

Those who successfully complete this course will:

- Understand and implement the planning required to integrate audit activities across multiple management systems
- Understand and successfully interpret the requirements of AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and OHSAS 18001
- Plan and conduct Integrated Audits using ISO 19011
- Generate documents and records associated with a successful Integrated Audit
- Use of effective opening and closing meetings to manage the communication process during Integrated Audits
- Conduct Integrated Audit interviews that generate audit evidence
- Ensure nonconformities are resolved prior to closing each audit cycle

Intended learning outcomes—students will:

1. Given AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025/ISO 14001 and/or OHSAS 18001 requirements, interpret the requirements of the standard.
2. Given an audit scenario, collect audit evidence appropriate for ISO 9001 (or industry specific QMS standard), ISO 14001, and/or ISO 18001 requirements.
3. Given an audit scenario, write nonconformity statement(s) and document the related audit evidence and requirements that support that nonconformity statement.
4. Understand terms and definitions related to management systems and auditing, including AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 &/or OHSAS 18001.
5. Based on ISO 19011, identify the knowledge and skills required for auditors.
6. Based on ISO 19011, identify principles of auditing.
7. Based on ISO 19011, define and describe the roles and responsibilities of the Auditor and the Audit Team Leader.
8. Based on ISO 19011, describe the personal behaviors of a successful Auditor.
9. Based on ISO 19011, describe the components of the Audit Cycle.
10. AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and/or OHSAS 18001 requirements, determine the requirements of the standard where an opportunity exists for integration and describe how these requirements would be audited in an integrated audit.
11. Given AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and/or OHSAS 18001 requirements, as well as company specific requirements, conduct an audit based on the ISO 19011 Audit Cycle including:
 - Developing and using an integrated audit checklist;
 - Conducting an opening meeting;
 - Conducting audit interviews;
 - Collecting audit evidence and documenting conformities and nonconformities during an audit
 - interview;
 - Writing an audit report; and
 - Conducting the closing meeting.

Additional benefits associated with attending this course:

- Qualify additional staff to conduct audits
- Provide critical knowledge for your management staff
- Gain insight into the AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and OHSAS audit requirements to augment/sustain your existing program

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 19-30. Additional fee for 2nd instructor at student 19 is \$2600.00.

5 Day – Integrated – QMS/EMS/OHSAS

Who Should Attend:

Those responsible for planning and scheduling an audit program for Quality Management System (QMS) / Environmental Management System (EMS) / Occupational Health and Safety Assessment System (OHSAS) related to planning and scheduling an audit program for ISO 9001, ISO 14001 and/or OHSAS 18001 and those who must perform audits to ISO 9001/ISO 14001 and/or OHSAS 18001, QMS/EMS/OHSAS Assurance Managers, Quality/Environmental/Health and Safety professionals, ISO Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the ISO 9001/ISO 14001/OHSAS 18001 Audit Process.

Course Objectives:

- Understand and implement the planning required to integrate audit activities across multiple management systems
- Understand and successfully interpret the requirements of ISO 9001, ISO 14001 and OHSAS 18001
- Plan and conduct Integrated Audits using ISO 19011
- Generate documents and records associated with a successful Integrated Audit
- Use of effective opening and closing meetings to manage the communication process during Integrated Audits
- Conduct Integrated Audit interviews that generate audit evidence
- Ensure nonconformities are resolved prior to closing each audit cycle

Intended learning outcomes—students will:

1. Given ISO 9001, ISO 14001 and/or OHSAS 18001 requirements, interpret the requirements of the standard.
2. Given an audit scenario, collect audit evidence appropriate for ISO 9001, ISO 14001, and/or ISO 18001 requirements.
3. Given an audit scenario, write nonconformity statement(s) and document the related audit evidence and requirements that support that nonconformity statement.
4. Understand terms and definitions related to management systems and auditing, including ISO 9001, ISO 14001 &/or OHSAS 18001.
5. Based on ISO 19011, identify the knowledge and skills required for auditors.
6. Based on ISO 19011, identify principles of auditing.
7. Based on ISO 19011, define and describe the roles and responsibilities of the Auditor and the Audit Team Leader.
8. Based on ISO 19011, describe the personal behaviors of a successful Auditor.
9. Based on ISO 19011, describe the components of the Audit Cycle.
10. Given ISO 9001, ISO 14001 and/or OHSAS 18001 requirements, determine the requirements of the standard where an opportunity exists for integration and describe how these requirements would be audited in an integrated audit.
11. Given ISO 9001, ISO 14001 and/or OHSAS 18001 requirements, as well as company specific requirements, conduct an audit based on the ISO 19011 Audit Cycle including:
 - Developing and using an integrated audit checklist;
 - Conducting an opening meeting;
 - Conducting audit interviews;
 - Collecting audit evidence and documenting conformities and nonconformities during an audit
 - interview;
 - Writing an audit report; and

- Conducting the closing meeting.

Additional benefits associated with attending this course:

- Qualify additional staff to conduct audits
- Provide critical knowledge for your management staff
- Gain insight into the ISO 9001, ISO 14001 and OHSAS audit requirements to augment/sustain your existing program

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 19-30. Additional fee for 2nd instructor at student 19 is \$3250.00

5 Day – Integrated – MD/TS

Who should attend:

Those responsible for Medical Device (MD) / Technical Specification (TS) functions relating to planning and scheduling an audit program for ISO 13485/TS 16949/TS 29001, ISO 14001 and/or OHSAS 18001 and those who must perform audits to ISO 13485/TS 16949/TS 29001, ISO 14001 and/or OHSAS 18001, QMS/EMS/OHSAS Assurance Managers, Quality/Environmental/Health and Safety professionals, ISO Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the ISO 13485/TS 16949/TS 29001/ISO 14001/OHSAS 18001 Audit Process

Those who successfully complete this course will:

- Understand and implement the planning required to integrate audit activities across multiple management systems
- Understand and successfully interpret the requirements of ISO 13485/TS 16949/TS 29001, ISO 14001 and OHSAS 18001
- Plan and conduct Integrated Audits using ISO 19011
- Generate documents and records associated with a successful Integrated Audit
- Use of effective opening and closing meetings to manage the communication process during Integrated Audits
- Conduct Integrated Audit interviews that generate audit evidence
- Ensure nonconformities are resolved prior to closing each audit cycle

Intended learning outcomes—students will:

1. Given ISO 13485/TS 16949/TS 29001/ISO 14001 and/or OHSAS 18001 requirements, interpret the requirements of the standard.
2. Given an audit scenario, collect audit evidence appropriate for ISO 9001 (or industry specific QMS standard), ISO 14001, and/or ISO 18001 requirements.
3. Given an audit scenario, write nonconformity statement(s) and document the related audit evidence and requirements that support that nonconformity statement.
4. Understand terms and definitions related to management systems and auditing, including ISO 13485/TS 16949/TS 29001, ISO 14001 &/or OHSAS 18001.
5. Based on ISO 19011, identify the knowledge and skills required for auditors.
6. Based on ISO 19011, identify principles of auditing.
7. Based on ISO 19011, define and describe the roles and responsibilities of the Auditor and the Audit Team Leader.
8. Based on ISO 19011, describe the personal behaviors of a successful Auditor.
9. Based on ISO 19011, describe the components of the Audit Cycle.
10. ISO 13485/TS 16949/TS 29001, ISO 14001 and/or OHSAS 18001 requirements, determine the requirements of the standard where an opportunity exists for integration and describe how these requirements would be audited in an integrated audit.
11. Given ISO 13485/TS 16949/TS 29001, ISO 14001 and/or OHSAS 18001 requirements, as well as company specific requirements, conduct an audit based on the ISO 19011 Audit Cycle including:

- Developing and using an integrated audit checklist;
- Conducting an opening meeting;
- Conducting audit interviews;
- Collecting audit evidence and documenting conformities and nonconformities during an audit
- interview;
- Writing an audit report; and
- Conducting the closing meeting.

Additional benefits associated with attending this course:

- Qualify additional staff to conduct audits
- Provide critical knowledge for your management staff
- Gain insight into the ISO 13485/TS 16949/TS 29001, ISO 14001 and OHSAS audit requirements to augment/sustain your existing program
- Understand the intent and purpose of industry specific subject matter such as Core Tools and 21 CFR 820 where applicable

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 19-30. Additional fee for 2nd instructor at student 19 is \$3250.00

5 Day – Integrated – AS/FS/Lab

Who Should Attend:

Those responsible for Aerospace (AS), Food Safety (FS) and Laboratory (Lab) functions relating to planning and scheduling an audit program AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and/or OHSAS 18001 and those who must perform audits to AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and/or OHSAS 18001, QMS/EMS/OHSAS Assurance Managers, Quality/Environmental/Health and Safety professionals, ISO Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025/ISO 14001/OHSAS 18001 Audit Process

Those who successfully complete this course will:

- Understand and implement the planning required to integrate audit activities across multiple management systems
- Understand and successfully interpret the requirements of AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and OHSAS 18001
- Plan and conduct Integrated Audits using ISO 19011
- Generate documents and records associated with a successful Integrated Audit
- Use of effective opening and closing meetings to manage the communication process during Integrated Audits
- Conduct Integrated Audit interviews that generate audit evidence
- Ensure nonconformities are resolved prior to closing each audit cycle

Intended learning outcomes—students will:

1. Given AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025/ISO 14001 and/or OHSAS 18001 requirements, interpret the requirements of the standard.
2. Given an audit scenario, collect audit evidence appropriate for ISO 9001 (or industry specific QMS standard), ISO 14001, and/or ISO 18001 requirements.
3. Given an audit scenario, write nonconformity statement(s) and document the related audit evidence and requirements that support that nonconformity statement.

4. Understand terms and definitions related to management systems and auditing, including AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 &/or OHSAS 18001.
5. Based on ISO 19011, identify the knowledge and skills required for auditors.
6. Based on ISO 19011, identify principles of auditing.
7. Based on ISO 19011, define and describe the roles and responsibilities of the Auditor and the Audit Team Leader.
8. Based on ISO 19011, describe the personal behaviors of a successful Auditor.
9. Based on ISO 19011, describe the components of the Audit Cycle.
10. AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and/or OHSAS 18001 requirements, determine the requirements of the standard where an opportunity exists for integration and describe how these requirements would be audited in an integrated audit.
11. Given AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and/or OHSAS 18001 requirements, as well as company specific requirements, conduct an audit based on the ISO 19011 Audit Cycle including:
 - Developing and using an integrated audit checklist;
 - Conducting an opening meeting;
 - Conducting audit interviews;
 - Collecting audit evidence and documenting conformities and nonconformities during an audit interview;
 - Writing an audit report; and
 - Conducting the closing meeting.

Additional benefits associated with attending this course:

- Qualify additional staff to conduct audits
- Provide critical knowledge for your management staff
- Gain insight into the AS9100/AS9110/AS9120/ISO 22000/FSSC 22000/ ISO 17025, ISO 14001 and OHSAS audit requirements to augment/sustain your existing program

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 19-30. Additional fee for 2nd instructor at student 19 is \$3250.00

5 Day – Exemplar Global Certified CLA Training – QMS/EMS/OHSAS

Who Should Attend:

Those responsible for planning and scheduling an audit program as a Certified Lead Auditor (CLA) for Quality Management System (QMS) / Environmental Management System (EMS) / Occupational Health and Safety Assessment System (OHSAS) and those who must perform audits to QMS/EMS/OHSAS, QMS/EMS/OHSAS Managers, QMS/EMS/OHSAS professionals, ISO Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the QMS/EMS/OHSAS Audit Process

Course Objectives:

- Fully understand and successfully interpret the QMS/EMS/OHSAS requirements
- Audit to the ISO 9001, ISO 14001 or OHSAS 18001 Management System Standard
- Plan, manage, and schedule an audit program
- Develop a cost-effective and compliant audit system
- Qualify additional staff to conduct internal audits
- Provide critical knowledge for your staff and management
- Gain insight into the QMS/EMS/OHSAS audit requirements to augment/sustain your existing program
- Gain knowledge to help manage a successful ISO implementation project
- Document and define your quality system, Implement, design and complete a successful QMS/EMS/OHSAS project
- Understand how to audit using the Process Approach
- Review documents in light of the decreased emphasis on documentation
- Ask audit questions that get results
- Identify and document nonconformities
- Conduct an audit against the newly published ISO 19011 Audit Standard

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 11-20. Additional fee for 2nd instructor at student 11 is \$2600.00

5 Day – Exemplar Global Certified CLA – Ind Sp/Int

Who Should Attend:

Those responsible for Industry Specific (IS) and Integrated Auditor (Int) functions relating to planning and scheduling an audit program as a Certified Lead Auditor (CLA) for QMS/EMS/OHSAS and those who must perform audits to QMS/EMS/OHSAS, QMS/EMS/OHSAS Managers, QMS/EMS/OHSAS professionals, ISO Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the QMS/EMS/OHSAS Audit Process

Course Objectives:

- Fully understand and successfully interpret the QMS/EMS/OHSAS requirements
- Audit to the ISO 13485/TS 16949/TS 29001, ISO 14001 or OHSAS 18001 Management System Standard
- Plan, manage, and schedule an audit program
- Develop a cost-effective and compliant audit system
- Qualify additional staff to conduct internal audits
- Provide critical knowledge for your staff and management
- Gain insight into the QMS/EMS/OHSAS audit requirements to augment/sustain your existing program
- Gain knowledge to help manage a successful ISO implementation project

- Document and define your quality system, Implement, design and complete a successful QMS/EMS/OHSAS project
- Understand how to audit using the Process Approach
- Review documents in light of the decreased emphasis on documentation
- Ask audit questions that get results
- Identify and document nonconformities
- Conduct an audit against the newly published ISO 19011 Audit Standard

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 11-20. Additional fee for 2nd instructor at student 11 is \$2600.00

5 Day – Exemplar Global Certified CLA – AS

Who Should Attend:

Those responsible for Aerospace (AS) functions relating to planning and scheduling an audit program for AS9100/AS9110 and those who must perform audits to AS9100/AS9110, AS9100/AS9110/AS9120 Managers, AS9100/AS9110 professionals, AS9100/AS9110 Project Managers, ISO Project Team Members or anyone desiring an in-depth understanding of the AS9100/AS9110 Audit Process

Course Objectives:

- Fully understand and successfully interpret the AS9100/AS9110 requirements
- Audit to the AS9100/AS9110 Management System Standard
- Plan, manage, and schedule an audit program
- Develop a cost-effective and compliant audit system
- Qualify additional staff to conduct internal audits
- Provide critical knowledge for your staff and management
- Gain insight into the AS9100/AS9110 audit requirements to augment/sustain your existing program
- Gain knowledge to help manage a successful ISO implementation project
- Document and define your quality system, Implement, design and complete a successful AS9100/AS9110 project
- Understand how to audit using the Process Approach
- Review documents in light of the decreased emphasis on documentation
- Ask audit questions that get results
- Identify and document nonconformities
- Conduct an audit against the newly published ISO 19011 Audit Standard

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: None

5 Day – Exemplar Global Certified CLA – FS/Lab

Who Should Attend:

Those responsible for Food Safety (FS) and Lead Auditor Laboratory (Lab) functions relating to planning and scheduling an audit program for ISO 22000/FSSC 22000/ISO 17025 and those who must perform audits to ISO 22000/FSSC 22000 ISO 17025, ISO 22000/FSSC 22000/ISO 17025 Managers, ISO 22000/FSSC 22000 ISO 17025 professionals, ISO 22000/FSSC 22000/ISO 17025 Project Managers, ISO 22000/FSSC 22000/ISO 17025 Project Team Members or anyone desiring an in-depth understanding of the ISO 22000/FSSC 22000/ISO 17025 Audit Process

Course Objectives:

- Fully understand and successfully interpret the ISO 22000/FSSC 22000/ISO 17025 requirements
- Audit to the ISO 22000/FSSC 22000/ISO 17025 Management System Standard
- Plan, manage, and schedule an audit program
- Develop a cost-effective and compliant audit system
- Qualify additional staff to conduct internal audits
- Provide critical knowledge for your staff and management
- Gain insight into the ISO 22000/FSSC 22000/ISO 17025 audit requirements to augment/sustain your existing program
- Gain knowledge to help manage a successful ISO implementation project
- Document and define your quality system, Implement, design and complete a successful ISO 22000/FSSC 22000/ISO 17025 project
- Understand how to audit using the Process Approach
- Review documents in light of the decreased emphasis on documentation
- Ask audit questions that get results
- Identify and document nonconformities
- Conduct an audit against the newly published ISO 19011 Audit Standard

Training Method: Instructor Led

Additional Instructors Required / Additional Fee: Additional instructor required for students 11-20. Additional fee for 2nd instructor at student 11 is \$2600.00
