## **About POWER VAC AMERICA, INC.**

Power Vac America specializes in the **cleaning and remediation** of HVAC systems and **air ducts**. We do not perform any mechanical repairs, mechanical maintenance work, installations or equipment change-outs as they pertain to the mechanical operation of HVAC systems under this SIN. Our services include the cleaning of air handler units and ductwork, re-insulating the interior of air handler units and ductwork, resurfacing the interior of air handler units and ductwork and refurbishing condensate pans to prevent them from leaking. Power Vac America has the capability to perform any size job on a national level to the highest degree of customer satisfaction. We are one of the largest duct cleaning companies in Texas. Power Vac America is one of the most experienced HVAC system and air duct cleaning companies in Texas providing high quality duct cleaning services for commercial, industrial, institutional and marine customers.

Located in Houston, Texas serving the commercial, industrial, institutional, and marine industries within the 48 contiguous states and Washington DC.

**Power Vac America, Inc.**  
**GSA Labor Category Descriptions**  
**SIN 811-005 and SIN 003-100**

**PROJECT COORDINATOR/DIRECTOR**

Education/Experience:

Required High School Diploma plus five (5) years of work related experience. Must have experience as Project Manager on HVAC system and air duct cleaning project. Must have a thorough knowledge of the proper use of all tools, equipment, and safety required for work needed under this contract. Must be able to read and understand mechanical (HVAC) specifications and drawings. Must pass background check and drug screening.

Functional Responsibilities:

- Capable of running multiple crews on one or more projects and/or job sites.
- Provides input for the project plan including man power, equipment, material and time requirements.
- Monitors safety, performance, scope, schedules, budgets and quality.
- Provides technical oversight and coordination with Power Vac America team members and management.
- Site preparation and evaluation with Project Managers to develop a firm game plan for each project.
- Schedules and supervises Project Managers.
- Stimulates maximum efficiency and productivity of crews.
- Assures appropriate records are prepared and maintained as required.
- Communicates project status with customers.
- Troubleshoots problems – job related and customer related.
- Provides a “post project” analysis of safety, performance, scope, schedules, budgets and quality to Power Vac America management.

**PROJECT MANAGER**

Education/Experience:

Requires High School Diploma plus four (4) years of work related experience. Must have experience on HVAC system and air duct cleaning project. Must have a thorough knowledge of the proper use of all tools, equipment, and safety required for work needed under this contract. Must be able to read and understand mechanical (HVAC) specifications and drawings. Must pass background check and drug screening.

Functional Responsibilities:

- Responsible for the day-to-day operations of the project.
- Reports to Project Coordinator/Director.
- Capable of running multiple crews on one (1) project or job site.
- Monitors safety, performance, scope, schedules, budgets and quality.
- Provides technical oversight and coordination with Power Vac America team members and management.
- Site preparation and evaluation to develop a firm game plan for each project.
- Handles ordering and scheduling of labor, equipment and materials as required.
- Schedules and supervises Project Supervisors.
- Stimulates maximum efficiency and productivity of crews.
- Communicates project status with customers.
- Capable of performing all task associated with the project.
- Capable of training others on all task associated with the project.
- Witnesses all project inspections and/or testing with required agencies.
- Capable of analyzing and trouble-shooting performance, scope, and scheduling issues.
- Provides a “post project” analysis of safety, performance, scope, schedules, budgets and quality to Power Vac America management.

**ASSISTANT PROJECT MANAGER**

Education/Experience:

Requires High School Diploma plus three (3) years of work related experience. Must have experience on HVAC system and air duct cleaning project. Must have a thorough knowledge of the proper use of all tools, equipment, and safety required for work needed under this contract. Must be able to read and understand mechanical (HVAC) specifications and drawings. Must pass background check and drug screening.

Functional Responsibilities:

- Reports directly to the Project Manager on large projects that require additional supervision.
- Capable of running multiple crews on one (1) project or job site.
- Monitors safety, performance, scope, schedules, and quality.
- Schedules and supervises Project Supervisors.
- Stimulates maximum efficiency and productivity of crews.
- Capable of performing all task associated with the project.
- Capable of training others on all task associated with the project.
- Capable of analyzing and trouble-shooting performance, scope, and scheduling issues.

**PROJECT SUPERVISOR**

Education/Experience:

Requires High School Diploma plus three (3) years of work related experience. Must have experience on HVAC system and air duct cleaning project. Must have a thorough knowledge of the proper use of all tools, equipment, and safety required for work needed under this contract. Must pass background check and drug screening.

Functional Responsibilities:

- Reports directly to the Project Manager.
- Hands on worker capable of running a group of technicians/workers on a project or job site for a specific task.
- Assigns task to technicians and workers.
- Monitors safety, performance, scope, schedules, and quality.
- Capable of performing all task associated with the project.
- Capable of training others on all task associated with the project.
- Capable of analyzing and trouble-shooting performance and scope issues.

**TECHNICIAN II**

Education/Experience:

Requires High School Diploma and two (2) years work related experience. Must have experience on HVAC system and air duct cleaning project. Must have a thorough knowledge of the proper use of all tools, equipment, and safety required for work needed under this contract. Must pass background check and drug screening.

Functional Responsibilities:

- Reports directly to the Project Supervisor.
- Capable of performing all task associated with the project.
- Capable of training others on all task associated with the project.
- Capable of working with others.
- Capable of following directions.
- Capable of communicating with all members of the team.
- Capable of analyzing and trouble-shooting operational issues.
- Communicate progress and status to Project Supervisor.
