## **About TASC**

Founded in 1966, TASC, Inc. helps solve complex national security and public safety challenges by providing advanced systems engineering, integration and decision-support services to the Intelligence Community, Department of Defense and civilian agencies of the federal government. TASC has partnered with our customers toward one goal—the success of their missions. Our broad portfolio of services includes mission operations, analysis and engineering; system and policy analysis; program, financial and acquisition management; enterprise engineering and integration; advanced concept and technology development; test and evaluation; independent verification and validation; and cybersecurity. With about 5,000 employees in 40 locations, TASC generates \$1.5 billion in annual revenue. For more information and career opportunities, visit our website at [www.tasc.com](http://www.tasc.com).

## **Our Capabilities**

TASC has a complete understanding of the federal government’s accounting and budget processes and procedures. Our analysts have deep technical skills, advanced certifications, high-level clearances, extensive domain experience and continually remain abreast with all directives, policies, instructions and guidance. We use precise statistical, analytical modeling tools and practical methodologies to prioritize customer requirements, prepare cost estimates, assess alternatives and defend budgets at all levels of the review process. Our capabilities include financial management and analysis, budget analysis, accounting, cost estimating and analysis, business-process improvement and decision analysis support.

## **FABS Contract Scope**

The purpose of the Financial and Business Solutions (FABS) Schedule is to provide a full range of professional financial services as specified in individual task orders placed by ordering agencies.

FABS provides Federal agencies with direct access to commercial experts that can thoroughly address the needs of the Federal financial community. FABS provides access to a multitude of professional financial services and also provides the customer the ability to customize the services to meet their specific needs. The FABS schedule allows for choice, flexibility, ease-of-use and access to quality firms in the financial arena.

TASC shall ensure that its staff maintains any generally required professional certification, accreditation, and proficiency relative to their area of expertise. TASC shall retain documentation of such records. The Government will not pay for expenses to meet this requirement.

All work shall be performed in accordance with the most current edition of all applicable laws, regulations, Executive Orders, OMB bulletins or circulars, professional standards, etc. It is the responsibility of TASC to properly identify and comply with all applicable requirements and standards as the specific circumstances may warrant.

Certain licensing requirements and professional expertise may be required for specified tasks. These requirements may include but are not limited to Certified Public Accountants (CPA), Certified Information Systems Auditors (CISA), Certified Financial Planners (CFP), Certified Government Financial Managers (CGFM), Certified Management Accountants (CMA), Certified Management Consultants (CMC), etc. The ordering agency shall specify any special licensing requirement and/or professional standard. Ordering agencies and contractors are cautioned to avoid conflicts of interest when placing task orders for auditing or consulting work.

TASC will be responsible for delivering services for ordering agencies with multiple organizational levels and geographic locations nationwide and/or worldwide. TASC is capable of handling multiple task orders simultaneously (with an approximate average value of \$100,000 each).

## Special Item Number (SIN) Descriptions

**Note 1:** The Service Contract Act (SCA) is applicable to this contract and it includes an SCA applicable labor category for Front Office Support Level 1. The price for the indicated (Front Office Support 1) SCA labor category is based on the U. S. Department of Labor Wage Determination Number indentified in the SCA matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

**Note 2:** TASC's proposed FABS Schedule labor rates apply worldwide. Danger Allowance (Hazardous Duty) and Post Differential (Hardship) are often granted to personnel traveling outside the United States, especially in an active war zone. Personnel on such travel are generally subject to potential extreme danger and unusual hardship. In the event that such travel is requested on this contract, then Department of State regulations and TASC Human Resources policy recognize this and post specified allowances and differentials accordingly. The additional costs of these allowances and differentials are not included in our labor rates and would be bid on individual delivery orders on an Open Market basis.
