## CUSTOMER INFORMATION

1. Authorized Special Item Numbers (SINs)  
*Special Item No. 871-1 Strategic Planning for Technology Programs/Activities*  
*Special Item No. 871-2 Concept Development and Requirements Analysis*  
*Special Item No. 871-3 System Design, Engineering and Integration*  
*Special Item No. 871-4 Test and Evaluation*  
*Special Item No. 871-5 Integrated Logistics Support*  
*Special Item No. 871-6 Acquisition and Life Cycle Management*
2. Maximum order: \$1,000,000
3. Minimum order: \$100.00
4. Geographic coverage (delivery area): Worldwide
5. Point of production (city, county, and state or foreign country):  
Chantilly, VA
6. Statement of Net Price: All prices listed are net
7. Quantity discounts: Determined on an individual order basis
8. Prompt payment terms: Net 30 Days
- 9a. Notification that Government purchase cards are accepted below the micropurchase threshold (\$2,500)
- 9b. Notification that Government purchase cards are accepted above the micropurchase threshold (\$2,500)
10. Foreign items (list items by country of origin): *Not Applicable*
- 11a. Time of delivery: *As negotiated between Contractor and Ordering Agency*
- 11b. Items available for expedited delivery: *Not Applicable*
- 11c. Overnight and 2-day delivery: *Not Applicable*
- 11d. Urgent Requirements: *Not Applicable*
12. F.O.B. Point: *Destination*

13. Contractor's ordering address:  
Engility Corporation  
3750 Centerview Drive  
Chantilly, VA 20151
- 13b. Ordering Procedures: *For supplies and services, the ordering procedures, and information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.*
14. Contractor's payment address:  
Engility Corporation  
21753 Network Place  
Chicago, IL 60673-1217
15. Warranty provision: *Not Applicable*
16. Export packing charges: *Not Applicable*
17. Terms and conditions of Government purchase card acceptance (any thresholds above the micropurchase level): *None*
18. Terms and conditions of rental, maintenance, and repair: *Not Applicable*
19. Terms and conditions of installation: *Not Applicable*
20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices: *Not Applicable*
- 20a. Terms and conditions for any other services: *Not Applicable*
21. List of service and distribution points: *Not Applicable*
22. List of participating dealers: *Not Applicable*
23. Preventive maintenance: *Not Applicable*
- 24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants): *Not applicable*
- 24b. Section 508 compliance: *Not Applicable*
25. Data Universal Number System (DUNS) number: 048341838
26. Notification regarding registration in System for Award Management (SAM) database: Engility Corporation is registered in the System for Award Management database.  
CAGE Code: 02NP8

# ENGILITY CORPORATION

## LABOR CATEGORY DESCRIPTIONS

### *Acquisition Specialists*

Sources and purchases machinery, equipment, tools, raw material, packaging materials, parts, services, and/or supplies necessary for operation of a project/organization. Complies and analyzes statistical data to determine feasibility of buying products and to establish price objective. May prepare bid packages. Reviews proposals, negotiates prices, selects or recommends suppliers, analyzes trends, follows up orders placed, verifies delivery, approves payment and maintains necessary records. Degree plus related experience as follows:

Item #	Labor Category	Education	Relevant Experience
1	Acquisition Specialist 1	Bachelors Degree	2 Years
2	Acquisition Specialist 2	Masters Degree	8 Years

### *Analyst*

Analyzes and compiles data to determine feasibilities, evaluates findings, makes recommendations in a number of fields based upon education and experience to include: Continuous Process Improvement, Policies and Procedures, Engineering-Signal, Configuration, Intelligence, Accounting-Cost, Financial, Flight Operations, Business Process Analysis, Computer Systems, Programmer/Analyst, Software Configuration, Systems Software, Demand/Planning, Purchasing/Price. Prepares reports, charts, graphs of findings. Develops, integrates and provides forecasts/recommendations based upon data. Degree and related experience as follows:

Item #	Labor Category	Education	Relevant Experience
3	Analyst 1	High School	4 Years
4	Analyst 2	Bachelors Degree	2 Years
5	Analyst 3	Bachelors Degree	3 Years
6	Analyst 4	Bachelors Degree	5 Years
7	Analyst 5	Bachelors Degree	13 Years
8	Analyst 6	Masters Degree	10 Years
9	Analyst 7	Masters Degree	12 Years
10	Analyst 8	Masters Degree	14 Years

### *Administration/Clerical*

Performs variety of activities in support of functional/project based upon education and experience. Requires ability to follow instructions, to operate a variety of office equipment, and to effectively perform in a business environment. Ability to answer telephones, operate basic office and/or computer equipment, and dispense supplies and materials; receive visitors, file, log and record information, make copies, assist with mailings, and perform data entry.

Item #	Labor Category	Education	Relevant Experience
11	Administrator 1	High School	2 Years
12	Administrator 2	High School	3 Years
13	Clerical 3	High School	5 Years
14	Clerical 4	High School	7 Years

### ***Consultants/Subject Matter Experts***

Provides extremely high level subject matter expertise for work described in the task. Provides advanced technical knowledge and analysis of highly specialized applications and operational environment, high-level functional systems analysis, design, integration, documentation, training, and implementation advice on complex problems. Applies principles, methods, and knowledge of specific functional areas of expertise to specific task order requirements. May require experience and knowledge of several related fields, and a recognition as a leader within a technical function. Education and experience relate directly to activities of a group of technical, scientific, and/or information systems or technologies. Develops plans and project tasking, determines needs, investigates and resolves problems, interfaces with other functions and outside personnel. Four years of intensive and progressive experience in the individual's field of study and specialization. Degree in related technical field such as engineering or computer science.

Item #	Labor Category	Education	Relevant Experience
15	Consultant/SME 1	Bachelors Degree	10 Years
16	Consultant/SME 2	Bachelors Degree	12 Years
17	Consultant/SME 3	Bachelors Degree	13 Years
18	Consultant/SME 4	Bachelors Degree	14 Years
19	Consultant/SME 5	Bachelors Degree	15 Years
20	Consultant/SME 6	Bachelors Degree	16 Years

### ***Project Coordinator***

Schedules and coordinates work. Ensures priorities are optimally set, and monitors and follows up to ensure work is performed. May also maintain schedules for project resources, to include subcontractors, material requirements, and resource availability. Compiles records concerning quality, cost, and types of material received, shipped, in stock or in inventory, and/or in production. Assists in determining schedule impacts – possible and actual shortages. May initiate actions to correct deficiencies.

Item #	Labor Category	Education	Relevant Experience
21	Project Coordinator 1	Associates Degree	1 Year
22	Project Coordinator 2	Bachelors Degree	3 Years
23	Project Coordinator 3	Bachelors Degree	5 Years

### ***Drafting Specialist***

Based on education and experience level established below, prepares working plans, detailed drawings, and complete mechanical or electrical drawings of complex components and assemblies from notes, verbal instructions, and rough or detailed sketches for engineering or manufacturing purposes. Frequently uses

computerized equipment (e.g. CAD/CAM). Makes engineering computations, writes specifications, and makes adjustments in drawings and specifications. Verifies completed work, checks dimensions, material, and quantities to be used.

Item #	Labor Category	Education	Relevant Experience
24	Drafting Specialist 1	High School	2 Years
25	Drafting Specialist 2	Associates Degree	5 Years
26	Drafting Specialist 3	Associates Degree	7 Years
27	Drafting Specialist 4	Associates Degree	8 Years

### ***Engineering***

*Engineering Technician* - Requires basic understanding of an engineering discipline. Ability to assist in designing, testing, troubleshooting, technical support, and documentation of products, processes, and systems.

### *Engineering* -

Uses established and well defined engineering procedures. Gathers and correlates basic engineering data. May plan and/or performs detailed or routine engineering, design development or engineering assignments including responsibility for a part of a major project, research and development assignments involving calculations relative to years of experience and education. May act as internal expert in an engineering design/development area; and/or act as task leader in the design, testing, troubleshooting, technical support and documentation of products and processes.

*Lead Engineers* - Plans, conducts, and directs logistics research and development projects of major significance that are highly difficult and complex in nature, necessitating the expert application of advanced engineering knowledge or associated engineering and scientific fields. Performs a variety of work in one or more recognized engineering disciplines in implementing and integrating logistics projects.

*Principal Engineers* – Services as a professional authority, and/or project team leader. Performs system and subsystem definition, preliminary and detailed design, design implementation, and subsystem and system integration. Participates in logistics software requirements review, preliminary and critical design, integration readiness review, and software acceptance testing.

Functional areas include: Aeronautical, Applications, Electrical, Electromagnetic, Electromechanical, Electronics, Electro-optical Measurements, Geo-Spatial, Guidance, Navigation and Control, Hardware, Information Assurance, Mechanical, RF/Microwave Design, Signal Analysis, Signal and Image Processing, Software, Structural, Systems Architect, Systems Integration, Systems Modeling, Simulation and Analysis, Meteorology, and Operations Research. Curriculum or major field of study provides substantial knowledge useful in performing in functional discipline.

Item #	Labor Category	Education	Relevant Experience
28	Engineer Technician 1	High School	5 Years
29	Engineer Technician 2	High School	8 Years
30	Engineer 1	Bachelors Degree	None
31	Engineer 2	Bachelors Degree	1 Year
32	Engineer 3	Bachelors Degree	2 Years
33	Engineer 4	Bachelors Degree	3 Years
34	Engineer 5	Bachelors Degree	4 Years
35	Engineer 6	Bachelors Degree	6 Years
36	Engineer 7	Bachelors Degree	7 Years
37	Engineer 8	Bachelors Degree	10 Years
38	Engineer 9	Bachelors Degree	12 Years
39	Engineer 10	Bachelors Degree	14 Years
40	Engineer 11	Bachelors Degree	20 Years
41	Lead Engineer 5	Masters Degree	10 Years
42	Lead Engineer 7	Masters Degree	15 Years
43	Principal Engineer 6	Masters Degree	12 Years
44	Principal Engineer 7	Masters Degree	18 Years

### ***Information Specialist***

Designs and implements information assurance and security engineering systems with requirements of business continuity, operations security, cryptography, forensics, regulatory compliance, internal counter-espionage, physical security analysis (including facilities analysis and security management). Assesses and mitigates system security threats and risks throughout the program life cycle. Validates system security requirements definition and analysis. Establishes system security designs. Implements security designs in hardware, software, data, and procedures. Verifies security requirements; performs system certification and accreditation planning and testing and liaison activities. Supports secure systems operations and maintenance.

Item #	Labor Category	Education	Relevant Experience
45	Information Specialist 1	Bachelors Degree	8 Years
46	Information Specialist 2	Bachelors Degree	10 Years

### ***Logistician***

Leads and directs integrated logistics support (ILS) activities design to provide effective and efficient life cycle support of systems and equipment. Recommends ILS element planning and progress to ensure compliance with program requirements, specifications, and standards. Analyzes, models, and optimizes distribution networks, using advanced logistics software for location of sites, allocation of resources, inventory placement and size, selection of transportation mode, freight consolidation, closed loop tours, continuous moves, shipment to foreign customers, etc. Determines proper logistic support sequences and time phasing, problems arising from location of operational area, and other factors such as environmental and human factors. Degree and progressive experience in functional discipline as follows:

Item #	Labor Category	Education	Relevant Experience
47	Logistician 3	Bachelors Degree	8 Years
48	Logistician 4	Bachelors Degree	10 Years

### ***Project/Program Manager***

Depending upon education and experience, is responsible for the overall performance of a program/project/contract to include cost, schedule, technical performance, and subcontractors' performance. Ensures that all tasks issued are performed within cost, schedule and technical requirements and that corporate quality assurance provisions are implemented. Accepts task orders and reviews tasks for potential OCI issues and resolves same. Selects key task team members and provides task planning guidance. Approves task performance plans and reviews assignments. Interacts externally with the COTR and CO. Degree in computer science, information systems, engineering or a mathematics-intensive discipline or major field of study which either provides substantial knowledge useful in managing projects or is closely related to the work as described and required by the task.

Item #	Labor Category	Education	Relevant Experience
51	Project/Program Manager 1	Bachelors Degree	10 Years
52	Project/Program Manager 2	Bachelors Degree	15 Years
53	Project/Program Manager 3	Bachelors Degree	16 Years
54	Project/Program Manager 4	Bachelors Degree	17 Years
55	Project/Program Manager 5	Bachelors Degree	19 Years
56	Project/Program Manager 6	Bachelors Degree	20 Years
57	Project/Program Manager 7	Masters Degree	8 Years

### ***Project Analyst***

Formulates and performs analysis to determine parametric characterizations, functions, and applications. Develops new and/or integrates existing system simulation frameworks, performance models and algorithms, threat models, and command and control models. Simulates real-time operations, develops integrates and uses advanced graphical user interfaces and visualization tools to present data, models operational environments, performs trade studies via computer simulation and recommends alternatives. Performs operational analysis and mission effectiveness analysis. Curriculum or major field of study provides substantial knowledge useful in performing project objective.

Item #	Labor Category	Education	Relevant Experience
58	Project Analyst 1	Bachelors Degree	None
59	Project Analyst 2	Bachelors Degree	10 Years
60	Project Analyst 3	Bachelors Degree	12 Years
61	Project Analyst 4	Bachelors Degree	14 Years
62	Project Analyst 5	Bachelors Degree	15 Years

### ***Publication Specialist***

Develops, designs, plans, lays out, and produces a variety of technical and promotional illustrations or publications such as brochures, posters, manuals, handbooks, and advertising matter. Selects techniques

best suited to produce desired visual effects in conformance with established quality standards and specified contractual requirements.

Item #	Labor Category	Education	Relevant Experience
63	Publication Specialist	Associates Degree	5 Years

***Quality Specialist***

Develop and implement program quality plans, programs, and procedures using statistical quality control measures, lean manufacturing concepts, and six-sigma tools and analyses. Ensures that performance and quality products conform to established company and regulatory standards. Reviews, analyzes and reports quality discrepancies related to assembly, process, mechanical, electrical and electro-mechanical systems. Investigates problems and develops disposition and corrective actions for recurring discrepancies. Recommends corrective actions, dispositions and modifications.

Item #	Labor Category	Education	Relevant Experience
64	Quality Specialist	Bachelors Degree	5 Years

***Scientist***

Performs in Engineering and Sciences functional areas to include Chemistry, Aeronautical, Chemical, Meteorology, Physics, and Earth Sciences. Conducts studies, research, develops theories and laws based on observed results of experiments and predicts phenomena based on theoretical considerations in areas of application and interprets data. Based upon education and experience, may include comprehensive knowledge of several related fields, and recognition as a leader within the technical function. Ability to develop plans and projects, determine needs, investigate and resolve problems, interface with other functions as required. Degree and progressive experience in related field as established below. Also has experience in current technologies and where required for the task, emerging technologies.

Item #	Labor Category	Education	Relevant Experience
65	Scientist 1	Bachelors Degree	None
66	Scientist 2	Bachelors Degree	1 Year
67	Scientist 3	Bachelors Degree	3 Years
68	Scientist 4	Bachelors Degree	5 Years
69	Scientist 5	Bachelors Degree	12 Years
70	Scientist 6	Bachelors Degree	15 Years
71	Scientist 7	Masters Degree	12 Years
72	Scientist 8	Masters Degree	15 Years
73	Scientist 9	Masters Degree	16 Years

***Technical Specialist***

Requires ability to follow instructions, to operate a variety of equipment, and to effectively perform in a scientific/technical/engineering environment. Ability to use computer and other technical tools to record and maintain data, etc. Performs routine operation and maintenance of equipment. Ability to assist in the assembly, installation, and testing of equipment or connection of components. Ability to set-up, operate and adjust equipment, analyze and/or preparing engineering, biomedical, geophysical or other technical

data, and may assist in the design of tests or clinical trials, and be able to diagnose and correct electrical or mechanical malfunctions. Depending upon education and experience, may be able to perform coding/documentation of computer programs, design/testing/maintenance of equipment, and/or other scientific analysis.

Item #	Labor Category	Education	Relevant Experience
74	Technical Specialist 1	Associates Degree	5 Years
75	Technical Specialist 2	Associates Degree	8 Years
76	Technical Specialist 3	Bachelors Degree	5 Years
77	Technical Specialist 4	Bachelors Degree	6 Years
78	Technical Specialist 5	Bachelors Degree	8 Years
79	Technical Specialist 6	Bachelors Degree	10 Years

### ***Test Specialists***

Designs, develops, and implements testing methods and equipment. Plans and arranges the labor, schedules, and equipment required for testing and evaluating standard and special devices. Provides test area with parameters for sample testing and specifies tests to be performed. Compiles data and defines changes required in testing equipment, testing procedures, manufacturing processes, or new testing requirements. Synthesizes customer contractual needs and requirements into test solutions that acknowledges technical, schedule and cost constraints. Develops and directs preparation and execution of comprehensive test plans, procedures and schedules for completing tests. Coordinates integrated testing activities. Reviews and evaluates test requirements to insure completeness of test program.

Item #	Labor Category	Education	Relevant Experience
80	Test Specialist 1	Bachelors Degree	5 Years
81	Test Specialist 2	Bachelors Degree	7 Years
82	Test Specialist 3	Bachelors Degree	9 Years

### ***Training Specialists***

Provides on-the-job instruction for an adult educational program, demonstrates, explains, and instructs students in the use/maintenance of equipment, techniques, principles, or instruction with training aids, devices, simulators, or simulations. May analyze the needs of customers/project requirements to design and develop effective training courses and materials. Interprets technical information and translates it into practical language for training and instruction. Confers with technical staff members to interpret technical requirements and verify training and instructional material. Conducts classroom/laboratory instructions. Depending upon level, may develop, validate, and implement instruments measuring student achievement of learning/training objectives.

Item #	Labor Category	Education	Relevant Experience
83	Training Specialist 1	High School	4 Years
84	Training Specialist 2	Bachelors Degree	4 Years
85	Training Specialist 3	Bachelors Degree	7 Years
86	Training Specialist 4	Bachelors Degree	8 Years

### ***Military Systems Specialists***

Plans, organizes, controls, integrates and completes technical projects within military systems. Research and design technical assignments, involving small projects. Performs design, development, validation evaluation of procedures, processes, techniques, models and/or methodologies used to develop sophisticated/complex military systems solutions to customer requirements. Provides expertise in specific system's integration with other defense systems depending upon education/experience identified below. Oversees and reviews the work of lower level specialists. Is a subject matter expert on specific system operations. Coordinates system/problem definition work activities. Provides specific knowledge on system interface issues. Develops written technical approach and methodology. Provides some evaluation, originality, or ingenuity.

Item #	Labor Category	Education	Relevant Experience
87	Military Systems Specialist 1	Bachelors Degree	1 Year
88	Military Systems Specialist 2	Bachelors Degree	2 Years
89	Military Systems Specialist 3	Bachelors Degree	6 Years
90	Military Systems Specialist 4	Bachelors Degree	10 Years

### ***Analytical/Scientific Engineering***

Demonstrated technical expertise in at least one field, and proficiency in others. Experience in guiding, aiding and/or managing others in the analysis, design, development, planning, and application and implementation of systems, products, services and processes. Experience working on complex projects requiring original thinking and new approaches. Ability to set priorities and ensure that the work products for the group conform to company and customer standards. Experience planning, conducting, and managing assignments, reviews progress and evaluates results, works with other technical and administrative disciplines, performs top-level analysis/research and plans, assigns, and manages project resources. Responsible for an important and complex area of research and/or investigation.

Item #	Labor Category	Education	Relevant Experience
91	Analytical/Scientific Engr, Sr. (Level D)	Bachelors Degree	7 Years
92	Analytical/Scientific Engr, Principal (Level E)	Bachelors Degree	10 Years
93	Analytical/Scientific Engr Principal Consulting (Level F)	Bachelors Degree	10 Years
94	Analytical/Scientific Manager (Level E)	Bachelors Degree	10 Years
95	Analytical/Scientific Division Mgr (Level E)	Bachelors Degree	10 Years

### ***Administration***

Requires administration and/or management experience, including a thorough understanding and competency in the management of relationships within and among internal and external organizations depending on the education and experience level. Includes organizing and directing work, coordinating efforts with other functional areas, establish priorities and perform diverse duties, broad and in-depth knowledge of functional operations and government/agency policies and procedures. May control or be accountable for resources of department.

Item #	Labor Category	Education	Relevant Experience
96	Administration Analyst, Sr. (Level D)	Bachelors Degree	7 Years
97	Administrative Analyst, Principal (Level E)	Bachelors Degree	10 Years
98	Administration Manager, Mid (Level C)	Bachelors Degree	5 Years
99	Administration Manager, Sr. (Level D)	Bachelors Degree	7 Years
100	Administration Director, Principal (Level E)	Bachelors Degree	10 Years

### ***Functional Manager***

Serves as the expert in the units' discipline area, provides the technical resources to meet the demands of the task assignment, and is responsible for building the unit's capability and technical staff. Advises and directs task personnel in the development of the task implementation. Is responsible for the quality of the technical products created by task personnel, reviews the work of and provides technical direction to task personnel, and supports other functional managers for multi-discipline tasks. Provides written and verbal reporting/presentations as needed.

Item #	Labor Category	Education	Relevant Experience
101	Functional Manager 1	Bachelors Degree	8 Years
102	Functional Manager 2	Bachelors Degree	10 Years
103	Functional Manager 3	Bachelors Degree	15 Years

### **Substitutions**

Engility Corporation reserves the right to make the following substitutions in the education and/or experience requirements of all service skill categories with the exception of Engineering, Scientist, Consultant/SME and Analytical/Scientific Engineering Categories set forth herein.

1. No high school diploma substitutions.
2. One year of relevant experience is the equivalent of one year of college education.
3. One year of college education is the equivalent of one year of relevant experience.

**SCA Wage Determination Table**

SCA-Eligible Contract Labor Category	SCA Occupation Code	SCA Title	Wage Determination Number	Wage Determination Date
Analyst 1	01011	Accounting Clerk I	2005-2103	6/13/2012
Administrator 1	01280	Receptionist	2005-2103	6/13/2012
Administrator 2	01111	General Clerk I	2005-2103	6/13/2012
Clerical 3	01112	General Clerk II	2005-2103	6/13/2012
Clerical 4	01113	General Clerk III	2005-2103	6/13/2012
Drafting Specialist 1	30061	Drafter/CAD Operator I	2005-2103	6/13/2012
Drafting Specialist 2	30062	Drafter/CAD Operator II	2005-2103	6/13/2012
Drafting Specialist 3	30063	Drafter/CAD Operator III	2005-2103	6/13/2012
Drafting Specialist 4	30064	Drafter/CAD Operator IV	2005-2103	6/13/2012
Engineer Technician 1	30081	Engineering Technician I	2005-2103	6/13/2012
Engineer Technician 2	30082	Engineering Technician II	2005-2103	6/13/2012
Training Specialist 1	15090	Technical Instructor	2005-2103	6/13/2012

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.
