26. CENTRAL CONTRACTOR REGISTRATION (CCR) DATABASE

Imageologists is registered in the CCR.

BPA NUMBER _____

(CUSTOMER NAME)
BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s) _____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (Ordering Agency):

(1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL
BPA DISCOUNT/PRICE	

_____	_____
_____	_____

(2) Delivery:

DESTINATION	DELIVERY SCHEDULES / DATES
_____	_____
_____	_____

(3) The Government estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.

(4) This BPA does not obligate any funds.

(5) This BPA expires on _____ or at the end of the contract period, whichever is earlier.

(6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT	OF	CONTACT
_____	_____		
_____	_____		
_____	_____		

(7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

- (a) Name of Contractor;
- (b) Contract Number;

- (c) BPA Number;
 - (d) Model Number or National Stock Number (NSN);
 - (e) Purchase Order Number;
 - (f) Date of Purchase;
 - (g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
 - (h) Date of Shipment.
- (9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.
- (10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

Basic Guidelines for Using “Contractor Team Arrangements”

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a customer agency requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions of the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customer's needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer's requirement.
- Customers make a best value selection.

20-316	Mutoh	MUWF-174100001	The Falcon II RJ-8000 50" inkjet printer. The Falcon II is an 8-color variable dot color inkjet printer widths of 49 inches. Incorporating <i>Dynamic Variable Dot Imaging</i> , the latest development in piezoelectric drop-on-demand technology, the Falcon-II can independently adjust the size of the droplets produced by each of its 1,440 nozzles-on-the-fly. The Falcon-II speed is a throughput up to 430 square feet per hour at 360x360 dpi. Designed for maximum versatility, the Falcon-II allows the user to load several combinations of dye or pigment ink or load the pigments and dyes simultaneously, instantly switching from one ink type to the other! In addition to four-color modes, the Falcon-II runs six- or eight-color jobs with ease and, combined with dynamic variable dot, achieves the ultimate in near continuous-tone reproduction. Up to 2880 dpi resolution. With the100 Base-T Ethernet Interface & automated take-up system standard and Mutoh ISIS Print Manager PS/3 compatible RIP software included. Maximum thickness 1.5mm. 21GB IDE ATA-66 hard disk capacity.	\$ 17,223.72

20-316	Polaroid	PO66-S100i1p2151	Polaroid ID-100 parallel level 1 Cardmaker software the camera's LED panel provides you with step-by-step instructions from start to finish. Each step must be completed before you can continue with the next step, thereby eliminating errors. The camera settings can be set to take two identical or two individual ID photo chips on a sheet of film. The camera is equipped with lighten and darken controls which allow you to adjust the photo and the data areas separately. The LED panel allows you to adjust the strobe, and the camera is also equipped with a strobe boost button, which allows you to increase the strobe's output for a single photo. A visible aiming light ensures that your subject's face is focused and in the correct position for the ID card. Electronic film timers emit an audible "beep" to indicate when the film development process is complete. Weight: 26 lbs (14.5 kg). Dimensions (in): 22.25" (H) x 16.5" (W) x 18.75" (D) (boxed). Dimensions (cm): 55.88 cm (H) x 43.18cm (W) x 48.26 cm (D) (boxed). Framing: Aiming light, Power: 110V, Card format: Horizontal or vertical, Handheld: No , Flash: Built-in , Film timer: Built-in, Film type: 3.25"	\$ 3,193.76

20-316	Polaroid	PO66-S75i1p2150	The Polaroid System 75 is a low cost, all-inclusive ID Card Production System complete with a Polaroid P75 printer, high quality Polaroid PDC 2150 digital camera, and an ID Card Maker software package of your choice that best meets your needs. The System 75 allows you to produce single sided, high quality identification cards quickly and affordably in house. High-speed printing at 144 cards per hour, edge-to-edge in full color (YMCKO) image printing throughput, 300 dpi (11.8 dots/mm) print resolution, 2 MB image memory standard, Space-saving, small footprint design is the perfect choice for desktops and countertop. Compatible with Windows 95/98, ME, NT 4.0, 2000, XP, Compatible with parallel and serial ports, Color dye sublimation or thermal transfer printing, See-through cover, and System includes: Digital Camera, software, and an ID card printer. High-speed single-sided printing: 25 seconds per card, edge-to-edge, in full-color. Image Memory: 2 MB, Drivers: Windows 95/98, ME, NT 4.0, 2000, XP, Print Resolution: 300 dpi, Print Method: color dye sublimation/thermal transfer, Ribbon YMCKO: 350 cards per roll. Communication Interface: parallel. Display: LCD and LED indicators. Limited Warranty: One Year. Electrical: 110-220 Volts AC	\$ 2,417.99

Color Image Processor for separating colored information to monochrome layers. Raster, vector and hybrid symbol library. Improved raster-to-vector conversion. New OCR module for text recognition in technical drawings. TWAIN scanner support. Raster input/output formats; RLC, RLP, TIFF, CCITT G3 & G4, CALS, NIFF, C4, PCX monochrome, BMP, IMG, EDMICS, and more. Raster background formats: RLC, TIFF, CCITT G3 & G4, CALS, NIFF, C4, PCX, DCX, BMP, IMG, TGA, EDMICS, JPEG, GIF, PNG, PCD, PSD, RAS, PCT, WMF, WPG, EPS, and more. Image process functions: whole-image or selective(irreg	\$ 4,211.34
20-316	RastereX	RA06-810550	Rasterex RxAutoImage™ 2004 base allows the use of scanned raster data inside AutoCAD 2004/LT 2004. RxAutoImage™ 2004 offers raster editing, raster snap and selection methods that function as effectively as vector editing: General raster capabilities; load industry standard hybrid formats, load proprietary raster formats RLC II, EDMICS CCITT G4, GEM, US Navy NIFF, twain support, unlimited undo and redo. Image enhancement cleanup and auto-processing for raster images; crop raster image, automatic speckle removal,deskew-automatic and manual, image clean-up, change DPI, hole removal, and fit to nearest paper size. Raster Editing-object level raster editing for document revision without conversion; intelligent raster object snap-most AutoCAD modes, cut, copy, paste, selection of objects inside a rerectangle/polygon, one-touch selection of lines, arcs, and circles. Conversion-Raster-to Vector conversion for intelligent vector editing; rasterization of vectors, line following, ortho snap for line following polygon creation. For AutoCAD 2004/LT 2004.	\$ 574.26
20-316	RastereX	RA06-810560	Rasterex RxAutoImage™ 2004 EDIT allows the use of scanned raster data inside AutoCAD 2004/ LT 2004. RxAutoImage™ 2004 offers raster editing, raster snap and selection methods that function as effectively as vector editing: General raster capabilities; load industry standard hybrid formats, load proprietary raster formats RLC II, EDMICS CCITT G4, GEM, US Navy NIFF, twain support, unlimited undo and redo. Image enhancement cleanup and auto-processing for raster images; crop raster image, automatic speckle removal,deskew-automatic and manual, multi-point rubber-sheeting/ calibration, image clean-up filters-basic (2), image clean-up filters-advanced (8),change DPI, hole removal, fit to nearest paper size, autocorrection wizard, and batch imaging processing. Raster Editing-object level raster editing for document revision without conversion; intelligent raster object snap-most AutoCAD modes, cut, copy, paste, selection of objects inside a rerectangle/polygon,one-touch selection of lines, arcs, circles, selection of objects crossing a rectangle/polygon, selection of objects by fence, drag and drop raster symbol library,four raster trace modes-convert to vector,delete raster, convert and delete,smooth raster. Conversion Raster-to-Vector co	\$ 1,133.44
20-316	RastereX	RA06-810565	Rasterex RxAutoImage™ 2004 EDIT-start-up in network 2 license- allows the use of scanned raster data inside AutoCAD 2004/ LT 2004. RxAutoImage™ 2004 offers raster editing, raster snap and selection methods that function as effectively as vector editing: General raster capabilities; load industry standard hybrid formats, load proprietary raster formats RLC II, EDMICS CCITT G4, GEM, US Navy NIFF, twain support, unlimited undo and redo. Image enhancement cleanup and auto-processing for raster images; crop raster image, automatic speckle removal,deskew-automatic and manual, multi-point rubber-sheeting/ calibration, image clean-up filters-basic (2), image clean-up filters-advanced (8), change DPI, hole removal, fit to nearest paper size, autocorrection wizard, and batch imaging processing.
