ENVIRONMENTAL COMMITMENT

The environment is an issue that GLOBAL takes most seriously. From design, to product development, to manufacturing, we are focused on environmental performance. "Earth Friendly" is not just a saying at GLOBAL, it is an essential component of our corporate philosophy. Our objective is to contribute to a 'greener future' by what we can accomplish today, as we firmly believe that we bear a responsibility for the protection of the environment. We continually research, develop and invest in new technologies that can diminish the environmental impact of our manufacturing processes. The product life cycle, the environmental impact of our product packaging and the use of recycled and recyclable materials are areas of particular focus.

LIMITED LIFETIME WARRANTY

GLOBAL warrants its products to be free from defects in material and workmanship for as long as the original end-user purchaser owns the product or 25 years in the case of a corporate purchaser. We are proud to maintain our own certified in-house testing laboratory; an industry rarity which allows us to put our products through the most rigorous tests science will allow to ensure complete customer satisfaction.
