Options and Accessories listed on following pages

West-Mark offers a multitude of options for upgrading these base models. When deviations from the base models are required to meet your specific mission, please contact one of our West-Mark Government Sales Staff to work up proper configuration and GSA pricing.

West-Mark will perform an engineering review of all vehicles, confirming proper configuration compliance (i.e. wheel base, axle weight ratings, DOT, NFPA, etc.).

When upgrading chassis and/or components on vehicles under SIN 1901-01 (Fire Apparatus), the completed vehicles shall be in compliance with NFPA 1901 or 1906 for stated vehicle unless otherwise requested, approved by customer, and stated in final contract specifications.

When upgrading chassis and/or components on vehicles under SIN 618-02 (Vacuum Trucks), the completed vehicles shall be in compliance with ANSI Z245.1 unless otherwise requested, approved by customer, and stated in final contract specifications.
