INFORMATION TECHNOLOGY SIN 511210 SOFTWARE ORDER TERMS

1) Specific Instructions for SIN 511210 - Software Licenses

- a) Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.
- b) The words “term software” or “perpetual software” shall be the first word in the product title/name for: 1) the price proposal template and 2) the SIP file for GSA Advantage. The word “term software” or “perpetual software” shall be the first word in the product title/name for the GSA Pricelist pricing charts (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016)). The words “term software” or “perpetual software” shall be in each product title in any response to a SBD Request for Quote (RFQ) or Request for Information (RFI).
- c) SBDs are encouraged to offer SIN 54151 Software Maintenance Services in conjunction with SIN 511210 - Software Licenses.
- d) Conversion from Term License to Perpetual License
 - i) When standard commercial practice offers conversions of term licenses to perpetual licenses, and an ordering activity requests such a conversion, the SBD shall provide the total amount of conversion credits available for the subject software within ten (10) calendar days after placing the order.
 - ii) When conversion credits are provided, they shall continue to accrue from one contract period to the next, provided the software has been continually licensed without interruption.
 - iii) The term license for each software product shall be discontinued on the day immediately preceding the effective date of conversion from a term license to a perpetual license.
 - iv) When conversion from term licenses to perpetual licenses is offered, the price the ordering activity shall pay will be the perpetual license price that prevailed at the time such software was initially ordered under a term license, or the perpetual license price prevailing at the time of conversion from a term license to a perpetual license, whichever is the less, minus an amount equal to a percentage of all term license payments during the period that the software was under a term license within the ordering activity.
- e) Term License Cessation
 - i) After a software product has been on a continuous term license for a period of (depends on the manufacturer's licensing program(s)) months, a fully paid-up, non-exclusive, perpetual license for the software product shall automatically accrue to the ordering activity. The period of continuous term license for automatic accrual of a fully paid-up perpetual license does not have to be achieved during a particular fiscal year; it is a written SBD commitment which continues to be available for software that is initially ordered under this contract, until a fully paid-up perpetual license accrues to the ordering activity. However, should the term license of the software be discontinued before the specified period of the continuous term license has been satisfied, the perpetual license accrual shall be forfeited. SBDs who do not commercially offer conversions of term licenses to perpetual licenses shall indicate that their term licenses are not eligible for conversion at any time.
 - ii) Each separately priced software product shall be individually enumerated, if different accrual periods apply for the purpose of perpetual license attainment
 - iii) Fill-in data and specific terms shall be attached to the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS

(OCT 2016)).

- iv) The SBD agrees to provide updates and software maintenance services for the software after a perpetual license has accrued, at the prices and terms of SIN 54151 – Software Maintenance Services if the licensee elects to order such services. Title to the software shall remain with the SBD.
- f) Utilization Limitations for Perpetual Licenses
 - i) Software Asset Identification Tags (SWID) (Option 1 Perpetual License)
 - (1) Option 1 is applicable when the Offeror agrees to include the International Organization for Standardization/International Electrotechnical Commission 19770-2 (ISO/IEC 19770- 2:2015) standard identification tag (SWID Tag) as an embedded element in the software. An ISO/IEC 19970-2 tag is a discoverable identification element in software that provides licensees enhanced asset visibility. Enhance visibility supports both the goals of better software asset management and license compliance. Offerors may use the National Institute of Standards and Technology (NIST) document “NISTIR 8060: Guidelines for Creation of Interoperable Software Identification (SWID) Tags,” December 2015 to determine if they are in compliance with the ISO/IEC 19770-2 standard.
 - (2) Section 837 of The Federal Information Technology Acquisition Reform Act (FITARA) of 2014, requires GSA to seek agreements with software vendors that enhance government- wide acquisition, shared use, and dissemination of software, as well as compliance with end user license agreements. The Megabyte Act of 2016 requires agencies to inventory software assets and to make informed decisions prior to new software acquisitions. In June of 2016, the Office of Management and Budget issued guidance on software asset management requiring each CFO Act (Public Law 101-576 – 11/15/1990) agency to begin software inventory management (M-16-12). To support these requirements, Offerors may elect to include the terms of Option 1 and/or Option 2, which support software asset management and government-wide reallocation or transferability of perpetually licensed software.
 - ii) Reallocation of Perpetual Software (Option 2 Perpetual License)
 - (1) The purpose of SIN 511210 OPTION 2 is to allow ordering activities to transfer software assets for a pre-negotiated charge to other ordering activities.
 - (2) When an ordering activity becomes aware that a reusable software asset may be available for transfer, it shall contact the SBD, identify the software license or licenses in question, and request that these licenses be reallocated or otherwise made available to the new ordering activity.
 - (3) SBDs shall release the original ordering activity from all future obligations under the original license agreement and shall present the new ordering activity with an equivalent license agreement. When the new ordering activity agrees to the license terms, henceforth any subsequent infringement or breach of licensing obligations by the new ordering activity shall be a matter exclusively between the new ordering activity and the SBD.
 - (4) The original ordering activity shall de-install, and/or make unusable all of the software assets that are to be transferred. It shall have no continuing right to use the software and any usage shall be considered a breach of the SBD’s intellectual property and a matter of dispute between the original ordering activity/original license grantee and the licensor.
 - (5) As a matter of convenience, once the original licenses are deactivated, di-installed, or made otherwise unusable by the original ordering activity or license grantee, the SBD may elect to issue new licenses to the new ordering activity to replace the old licenses. When new licenses are not issued, the SBD shall

provide technical advice on how best to achieve the functional transfer of the software assets.

- (6) Software assets that are eligible for transfer that have lapsed Software Maintenance Services (SIN 54151) may require a maintenance reinstatement fee, chargeable to the new ordering activity or license grantee. When such a fee is paid, the new ordering activity shall receive all the rights and benefits of Software Maintenance Services.
 - (7) When software assets are eligible for transfer, and are fully covered under pre-paid Software Maintenance Services (SIN 54151), the new ordering activity shall not be required to pay maintenance for those license assets prior to the natural termination of the paid for maintenance period. The rights associated with paid for current Software Maintenance Services shall automatically transfer with the software licenses without fee. When the maintenance period expires, the new ordering activity or license grantee shall have the option to renew maintenance.
 - (8) The administrative fee to support the transfer of licenses, exclusive of any new incremental licensing or maintenance costs shall be * percentage (%) of the original license fee. The fee shall be paid only at the time of transfer. In applying the transfer fee, the Software SBD shall provide transactional data that supports the original costs of the licenses.
 - (9) Fill-in data and specific terms shall be attached to the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016).
- g) Software Conversions: Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as a result of a change in operating system, or from one computer system to another. Under a perpetual license, the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version. Under a term license, if conversion credits had accrued while the earlier version was under a term license, those credits shall carry forward and remain available as conversion credits which may be applied towards the perpetual license price of the new version.
