<b>RECON LAB</b>	<p>Our flagship full forensic suite that does an automated analysis of Windows, macOS, and iOS. <b>RECON LAB</b> is the ONLY forensic tool that allows for the identification and proper parsing of Apple Extended Metadata.</p> <p>See the evidence that is missed by other forensic tools... Until now you have been missing case solving evidence that has been there the entire time.</p> <p>RECON LAB is designed using common sense. You wouldn't trust a doctor to perform surgery knowing that they only looked at half of your medical results. Similarly, as a forensic examiner, why would you continue to use tools that miss data that is readily available? Common sense and your reputation can answer that question for you.</p> <p><b>Windows, Mac, iOS, Android and Google Takeout Automated Analysis</b> We automate the analysis of hundreds of artifacts from Windows, Mac, iOS Android, Google Takeout and more to speed up your investigations and reduce caseloads.</p> <p><b>Apple Extended Metadata</b> All Mac operating systems since 2005 have been creating an additional database of information about its files that can answer important questions and solve cases. Apple Extended Metadata can tell you a story about files; who sent it, when it was downloaded, how it was received, when it was viewed, was it opened by a human and more. RECON LAB was the first to identify, parse and report on Apple Extended Metadata natively.</p> <p>Includes Paragon's Mac Toolbox - SUMURI has partnered with Paragon Software to include helpful file system drivers for both Mac, Windows, and Linux. You will receive a license code for downloading and activating Paragon Software applications when you purchase a full version of RECON LAB.</p> <p><b>Note:</b> You have a 15 month period (1 year and 3 months) from the start date to renew software at the renewal list price, after this time you will have to pay the full price for the software.</p> <p><b>Minimum Requirements:</b></p> <ul style="list-style-type: none"> <li>○ Macintosh with i7 Quad-Core or Apple Silicon Equivalent (required to parse Apple Extended Metadata missed by other forensic tools) Minimum of 16GB of RAM.</li> </ul>	1	EACH	\$2,436.53	1 to 2 Business Days
